

Use your Verizon iPhone as a Lockbox Key!

Dear Supra Customers,

Many real estate professionals have turned their iPhones into a Supra lockbox key. Last week, Verizon added the iPhone to their network, opening the door for Verizon customers to use eKEY on their iPhone. Following Verizon's exciting announcement, here is information about the Verizon iPhone.

- The Verizon iPhone uses the same eKEY Adapter as the AT&T version.
- Adapters can be purchased from your Board or MLS, or from Supra directly using the online ordering tool within [SupraWEB](#). The retail price is \$54.95, plus applicable shipping, handling costs and taxes.
- The eKEY for iPhone application can be downloaded from the [Apple App Store](#). It is the same download as used for the AT&T iPhone.
- A [short video](#) has been created, which shows how agents in the Norman Board of REALTORS® in Norman, Oklahoma are using the eKEY for iPhone.

Other Important Information:

The links below will take you to several important items associated with eKEY for iPhone:

- [eKEY for iPhone Product Page](#) - An overview of the eKEY for iPhone application and how it integrates with the Supra eKEY Adapter.
- [eKEY for iPhone Quick Start Guide](#): This PDF document provides an overview of eKEY for iPhone and a great summary of how the solution works.
- [eKEY for iPhone User Guide](#): a detailed overview of the features and how to use eKEY for iPhone.
- [eKEY for iPhone download](#) page (on the Apple App Store): visit this page from an iPhone or computer to download the eKEY for iPhone App.

Thank you for choosing Supra. We appreciate your continued support.
